SUMMARY

Motivated and detail-oriented third-year Computer Science student at Daffodil International University with a passion for software development, data science, and web frameworks. Proficient in Python, Java, Flask, and Django, with experience developing diverse academic projects. Knowledgeable in data structures, database management, and computer networks. Eager to apply technical expertise to real-world software solutions.

RELEVANT EXPERIENCE

Python Developer (Academic Project)

E-commerce System

Daffodil International University

- Designed and implemented an e-commerce system with a user-friendly interface using Python.
- Used Flask/Django frameworks to build backend functionality and manage product data.

Database Designer (Academic Project)

Hotel Reservation System

Daffodil International University

- Developed a database-driven hotel reservation system to manage bookings and customer data.
- Applied SQL to design relational schemas and ensure efficient data retrieval.

Software Developer (Academic Project)

Car Rental System & Food Delivery System

Daffodil International University

- Created software systems simulating real-world applications for car rental and food delivery services.
- Applied software design principles to develop user-centric features and functional modules.

EDUCATION

Bachelor of Science in Computer Science and Engineering

Aug 2022- Jun 2026

- Daffodil International University

KEY SKILLS

- Programming Languages: Python, Java, C++
- Web Development: Flask, Django, HTML, CSS
- Databases: SQL, MySQL
- Other Skills: Data Science, Data Structures, Computer Networks, Problem solving.
